JERSEYS.

We firmly believe that with few exceptions EVERY LADY residing in this or any other city will purchase a Jersey during the spring season of 1874.

WE BELIEVE THIS

To be the most because we consider Jerseys the most PRACTICAL lady's garment ever invented.

Some will buy cheap ones,
Some will buy fine goods,
Some will not pay more than $1.25 for a Jersey,
Others will be ready to pay $50.00,
Some believe long ears, tinkle, or sleeve fullness marks of beauty,
But ALL will buy at least ONE Jersey.

Our preparations have been made according to our convictions, and we shall therefore exhibit the most complete assortment of

JERSEYS

Ever seen in this city.

Plain Fine Jerseys, in Black and Colors, at $1.25 each.

Handsome Braided Jerseys, in Black only, at $2.00 each.

Jersey Waists.

To satisfy the more fastidious trade we manufacture Jersey Waists made of a very pliable material, Black on the outside and White on the inside, and shall sell same at only

30 cts. each.

Being actual cost of production.

CARPETS.

This Department has been considerably increased, and our patrons will be surprised if they but take the trouble to inspect our stock and assortment, which is positively second to none in this city.

WE QUOTE CONFIDENCE.

Great Remnant Sale

FORT LEAVENWORTH, Kan., March 7.—[Special.]—Dr. Salmon, chief of the Bureau of Animal Industry, Washington, D. C., and Dr. Mohler, assistant to Dr. Salmon, stationed in Kansas City, Mo., arrived at Fort Leavenworth this morning, and with the General remained in session at his office nearly all day. The Government veterinarians have been in consultation with Governor Morrill, of Kansas, and with Governor Stone, of Missouri, and the General authority is backed up by the Secretary of Agriculture, who has given the Government veterinarians carte blanche to do whatever they deem necessary to stamp out the disease. A Detail's Description of the Position of the Murdered Parties Lying in the Trail.

Canton, Miss., March 5.—Special.—The preliminary examination of Judd Crounse and Frank Sidwards, who are charged with killing the postmaster of the extensive colored settlement, was resumed here this morning. THE MORTGAGE FRAUD.

A Scheme by Which the Trust of the Inhabitants Over Here Are to Be Increased.

And at the Same Time to Fill the Loan Business and Drive Investors from Chicago.

It Is Confidently Expected to Separate Two Hundred More Here for Edification This Week.

A Tribune reporter called yesterday upon a number of mortgagors in Chicago to get their views as to the effect of the scheme referred to by County Agent and Examiner, whereby a trust fire is started to investigate the records of Cook County and to bring to citizens here about the prosperity of building and loan associations of which about four hundred are located. Some of these interviewed are in favor of the scheme, but the majority believe it is a heavy burden to impose upon the people for the creation of honors, the money being guaranteed at two cents of interest and in addition to the expense of the foreign experts which is nothing compared with the actual expenses that will be incurred by citizens here and others who become heavily involved by the action of the promoters in favor of this fair for your town to Chicago. Those views, which are given below, are corroborated by the official fact that the recording clerk of this Superior Court has found the center of the area of interest to be put upon real estate loans for a foundation for the visit of more than a hundred of the foreign army of foreign experts, the chairman of Examining, and the committee of the purchase of this and the erection of buildings.

Mr. Irving and His Critics.

Boston, Mass., March 5.—[Special Correspondence.] The last representation in the present engagement of Sir Henry Irving and Miss Ellen Terry at the Tremont Theatre will be given this evening. The performance will be "Becket," by Tennyson, which has been the most successful of the plays presented during the engagement. Next week Sir Henry and Miss Terry will appear in Chicago, and then they will go to New York, where they will remain for the rest of the season. Their tour of the United States will be the last extensive one they will make in this country, as they have decided to retire from the stage in the near future. Sir Henry has been under the management of Bram Stoker, the well known author, for many years, and Miss Terry has been under the management of her brother, Edward Terry, for a long time. Mr. Stoker is a resident of London, and Mr. Terry is a resident of Australia, so that the two managers have had little opportunity of meeting each other. Mr. Stoker has been in this country for the last two months, and has had several conferences with Mr. Terry, who has been playing in Australia. Mr. Irving's Criticisms.

Mr. Irving's criticisms of the American stage and of American audiences have created a great deal of discussion in this city, and many persons have expressed their opinions of the matter. It is generally admitted that Mr. Irving's criticisms are not without foundation, but it is also admitted that he has overstated the case. It is true that the American stage is not what it should be, and that the American audience is not what it should be, but it is also true that the American stage is not what it should be, and that the American audience is not what it should be
